

The Parts of an Acoustic Guitar

- HEAD - where the tuners attached.
- TUNERS - where the strings are attached. You turn these to adjust the strings.
- NUT - where the strings sit.
- SOUNDHOLE - where the sound comes out.
- PICKGUARD - piece of plastic that prevents the wood from getting scratched.

Drills

1. Touch all the parts while saying the name of it. Do this many times until you remember what everything is called and what it does.
